**Other Special Packages**

We offer custom packages that include everything from just a few portraits before the ceremony to wedding and romantic shots on tropical beaches. Prices vary, but some of the travel packages have been priced up to \$16,000.

**5% Discount - Nov.-March or Sun.-Fri.**

**Special quotes on custom requests.**

Additional charges may apply for; Travel; Receptions more than 2.5 hours after ceremony start time; Additional time at reception per request; and additional photographs per request. Bride and Groom will be notified in advance for approval, of course.

**Please Note**

We are very good at what we do, but hectic activity and disorganization on the Wedding day can be confusing for all. Sometimes the usual pattern is also affected by late wedding party members, unruly behavior, etc. We cannot be held responsible for problems that occur due to weather, late wedding parties, unruly guests, last minute changes, etc. The quality and quantity of photographs will be affected by late or unruly Wedding Party members. We can supply you with a checklist of photos since it is also the Wedding Party's responsibility to make sure particular shots they want are not missed.

# Natural Wedding Photography

Your Wedding is a once in a lifetime event. You have planned it for months or even years. A day when you and your favorite people want to and do look their best. All your friends will be there. All your relatives will be there. It is a day to celebrate your love for one another. A day most people want to record so they can look back 40 years from now and relive the moments.

Many factors need to be considered for quality photographs of your Wedding: Equipment, Background, lighting, composition, exposure, and personalities.

## Equipment

To take advantage of creative lighting one must use professional photographic equipment. Amateur equipment does not have adequate flexibility or large enough sensors for creative composition. They are not flexible enough for flash use outdoors, and their metering ability is unusable in creative lighting situations. For great Wedding photographs it takes professional equipment like we use. Equipment that can take advantage of auxiliary light and hand held incident meters to measure the varying light conditions and the flexibility to take advantage of the light.

## Experience

Do you really want to take the chance that your Wedding photos will not turn out? Do you really want to have someone experimenting with poses on your Wedding day? Do you really want to spend dozens of hours looking through hundreds or thousands of photos trying to sort the good from the bad? Our decades of successful Wedding photography gives you the comfort of knowing that you will have excellent photos of this day. Plus, your poses will show your love and enjoyment. The lighting will be superb and show you in the best light possible. On your wedding day you look your best and the photos should show it. Our Professional Photographers take advantage of the light and location to give you the best possible photos on your Wedding day.

## High-End Professional Photography For a Reasonable Price

Many other studios refer outdoor weddings to us since we have the equipment and expertise to do the best job. You can now have high-end professional portraits for both indoor and outdoor weddings for a reasonable price.

Our 30 years of professional experience will give you the quality you need on your wedding day. We will give you the creative lighting and poses that you have dreamed of. We will make it easy, reduce the stress and eliminate the worry about your photos.

## Portrait Package

You spent a lot of time and money putting your wedding together. Shouldn't you have some professional quality images and lighting to remember it by? This is a new type of package that is in high demand in the new digital photography world. We will do the formal and fun portraits before the wedding, and your friends and relatives can shoot the ceremony and reception. Usual start time is 2 hours before or after the Wedding so we have time for creative photos of both the wedding party and the family. This package comes with a proof book and a CD of high resolution photographs - So you can create as many reprints as you like on your home computer. \$300 - \$400

## All packages come with

- ◆ High res, retouched "negatives" on CD
- ◆ Proof book (not included in Journalism Package)

Prices are dependent on the number of people in the wedding party - That is why there is a price range for each package.

## Portrait/Ceremony Package

This package is exactly what it sounds like: The Portrait Package plus coverage of the Ceremony. There is plenty of time and photographs to take both fun and traditional portraits of both the Wedding Party and family members. This is the perfect opportunity to get those shots of the parents, grandparents, etc. With our high quality lenses and high image resolution we shoot the ceremony without irritating (and often un-allowed), flash and don't jump around from place to place. We usually shoot from 200 to 300 photos. You will receive the best in a nice proof book.. \$995-\$1295

## Complete Wedding Package

This package includes everything listed in the Full Package plus: Outdoor engagement photos, a second or third location, and reception coverage which includes your entrance, the toasts, and the actual (not faked) cake cutting, dance, garter and bouquet toss. Special arrangements can be made for custom coverage. This package provides you with complete wedding coverage. We usually shoot between 300 and 400 photos and the best will be in a nice proof book. \$1595-\$1895

## Journalism Package

We unobtrusively shoot photographs of the days activity. Bride getting ready, Groomsman relaxing, pre- and post Wedding activities. We are open to doing the traditional wedding portraits as requested by the wedding party. You will receive CDs of all images. \$995 - \$1295

Electronic frame/album: Add \$200
